

CORONA-WARN APP AT A GLANCE.

1

DOWNLOAD

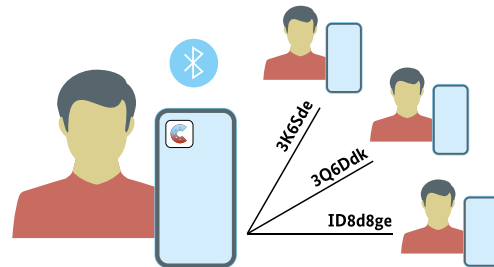

Download the Corona-Warn app from the App Store or Google Play. You do not have to enter any personal data.

2

RISK DETERMINATION

If you come near other people, pseudonym codes are exchanged via Bluetooth.

3

WARNING

You receive an anonymous warning as soon as someone with whom you had contact in the last 14 days registers a positive test result.

4

RECOMMENDATION

Along with the warning, the app provides you with clear recommendations for your next steps.
